Reward flight calculator

Find out how many Avios you need for a reward flight.

This calculator helps you work out the cost of:

- British Airways – direct flights and flights with one stop or connection (e.g. Edinburgh-London-Miami)
- Partner airlines – direct flights

The prices do not indicate availability.

Reward flights are subject to Executive Club terms and conditions

Connecting journeys

Prices shown above for connecting journeys assume either that both flights are on peak days, or that both are on off-peak days. It's possible that when you book, that one flight will be on a peak day, and one on an off-peak day, in which case the price may vary.

Reward Flight Saver

Reward Flight Saver gives you better value on reward flights. As well as the appropriate Avios amount, you pay a flat cash fee instead of taxes, fees and carrier charges, which will always result in a cheaper cash payment. If you choose off-peak dates for travel, you'll get the lowest Avios price as well.

Our current Reward Flight Saver fees are:

- Economy – £35/€42 return on British Airways and £56/ZAR700 on Comair
- Business – £50/€60 return on British Airways and £64/ZAR800 on Comair

Reward Flight Saver is available only on return British Airways flights in Europe and Comair flights in Southern Africa. To be eligible, you need to have collected or spent at least one Avios in the past 12 months. When you search for reward flights, if you are eligible, you'll see the Reward Flight Saver symbol against qualifying flights and the fee will be calculated automatically.

Reward Flight Saver Terms and Conditions

Booking with multiple partner airlines

Prices are calculated differently for flights with two or more oneworld airlines, or British Airways plus two or more oneworld partner airlines. For these journeys, use this table instead of the calculator:

Avios prices for journeys including two or more oneworld airlines

Pros and Cons of Avios question

- May not be an RFS route and the customer may not read/understand that its only for a specific region and airline.
- Can display a modal asking this question and after checking for route?
- Will need to explain what it is and how it works before the search?
- Not applicable to all searches does it qualify to be put in the form?
- If logged in then we can detect and show him only RFS?
- Can we only show RFS and turn off taxes would users like to compare of would it be legal?
